About me Dear Mr / Madam,

The purpose of this resume is to receive orders and work as a junior front-end developer / HTML / CSS coder.

I decided to change the development of my career and start from scratch doing a new business.

I am sure that the skills that I already have will help me with this:

First of all, I am very easy to learn and have discipline.

I proved it, mastering new technologies at work, such as SAP, Safari, 1C, Microsoft Office applications.

I have 2 diplomas and 1 certificate of study with honors.

Also a good example of learning and discipline is mastering the English language to the level of fluency, mastering touch typing, studying the graphic editor Adobe Photoshop and video editor Adobe Premiere Pro. I myself assembled from the components and installed the software on several home computers.

Secondly, I can communicate with clients and colleagues so that we jointly do the planned results. I have created several sales teams. Leading in customer interaction projects. I was the organizer and host of corporate events. Conducted trainings on communication and sales. I was a course headman at universities.

Thirdly, I am a creative person.

In my youth, I drew a lot. I learned to play the guitar and was the leader of several music groups. Now I am fond of photography and videography. I master the information style of writing and do copywriting.

And last but not least, this is a responsibility. This is one of the main qualities that I have developed by working as a leader in various companies.

For these reasons, all projects for which I will undertake will be brought to the planned quality result.

Additional Information:

I support a healthy lifestyle. I am a triathlete.

Married. The daughter is 4 years old. 2 dogs.

Please pay attention to the skills indicated in this resume.
